

Frontend engineer with experience building responsive React and Next.js applications using HTML, CSS, and JavaScript, hosted reliably on Vercel.

Employment history

Intern, Skinstric, Nov 2025 - Present

- Created the Skinstric project using React, NextJS, HTML, and CSS.
- Implemented areas for the user to take a photo using their camera or upload a photo using their gallery.
- Called the API so the backend could analyze the photos.
- Made the application responsive so it could be viewed on any screen size.
- Utilized GitHub and Vercel for production.
- Committed end of day reports using Google Docs to submit to my supervisors.
- Used the API backend to create dynamic information.

Teacher, Elementary Education, Jul 2017 - Jun 2022

- Integrated new edtech tools across lessons, boosting student engagement metrics
- Completed ongoing PD hours yearly and applied methods that raised assessment outcomes
- Aligned digital content to standards and adjusted plans based on data for measurable gains
- Implemented data-driven assessment strategies, leading to noticeable improvements in student performance and tailored instruction.

Education

Frontend Simplified

Frontend Development

Developed multiple websites to build skillsets in HTML, CSS, JavaScript, and React.

Hosted applications on Vercel providing a 99.9% uptime guarantee.

Engineered responsive web applications using React, enhancing user engagement and achieving substantial growth in site traffic.

Internship

Summarist Application

I improved the business's overall code quality by using React to make the website dynamic, functional, and visually appealing.

I used CSS flexbox and Grid to ensure a consistent display across all screen sizes.

I committed the branches to GitHub as well as created pull-requests and merges.

I utilized Firebase Authentication, Firestore database, and Google OAuth to implement user Authentication.

I integrated RESTful APIs using Axios to retrieve NFT metadata, achieving a 95% successful request rate and sub-2 second load times.

Technologies

HTML

CSS

JavaScript

React

NextJS

GitHub

Vercel

VSCode

Tailwind CSS
